## PROFILE

As a senior Front-End Developer with 9 years of experience, I am responsible for working on a range of projects, designing appealing websites, and interacting daily with web designers and back-end developers. My role involves developing and maintaining the frontend functionality of websites, ensuring a seamless user experience through efficient coding and modern web technologies.

## WORK EXPERIENCE

### A Pixel House

2018 - 2024

Senior Web Designer and Developer

- Producing, modifying and maintaining websites and creating quality web pages with all devices compatible.
- Collaborated with UX/UI designers to create a seamless and visually appealing user experience.

### Teccult Web Solutions

2015 - 2018

Web Designer

- Optimize website performance and addressed cross-browser compatibility issue.
- Identifying and troubleshooting UX problems (e.g. responsiveness)

### Softtech Global Ltd

2015 - 2015

Junior Web Designer

- Redesigned User Interface(UI) from PSD to HTML
- Establishing the purpose of the website based upon its target audience.

## PERSONAL SKILL

- Able to work in a multi-disciplinary team that includes designers, developers, consultants, and Project Managers.
- Working to short lead times.
- Multi-tasking ability
- Manage more than one projects at the same time

## **ROLE AND RESPONSIBILITY**

As a web designer, I utilize HTML5 and CSS3 to create static web pages, along with incorporating JavaScript and jQuery. Additionally, I am responsible for developing mockup designs and designing the internal pages of the website using inspiration gathered from sources such as Google or design provided by the design team.

I have construct also dynamic pages using PHP and MySQL. While I may not consider myself a core PHP developer, approximately 50% of my PHP projects rely on extensive research and development.

## **PROJECT MANAGEMENT SKILL**

Upon receiving a project assignment either from my coordinator or project manager I make it a priority to comprehend the project's core objectives and customer requirements. Following this initial step, I involved deeper into the project by conducting extensive research and sourcing design inspiration from various online resources.

Adhering to client-imposed deadlines is a top priority for me. My ultimate goal is to deliver the project on time and ensure that it meets all of their specific requirements.

## **RELATIONSHIPS WITH TEAM OR COLLEAGUE**

I strongly believe in upholding a sense of discipline and professionalism when collaborating with my team. If any team member encounters a difficult situation, I am always ready to offer my support and provide viable solutions to help them overcome any obstacles they may face.

I make it a point to assist my team members whenever they encounter issues related to UI design or any other project-related challenges. By fostering open communication and discussion within the team, we are able to collaborate and find suitable solutions together.

I always make an effort to share my knowledge with my colleagues, and I am equally open to learning from them as well. When my team members excel in their work, I take the time to express my appreciation and acknowledge their hard work and dedication.
